

Closing The Gaps:

Gains Control Of Its Supply Chain  
With **OSCA**

## About

**MTS Group**, headquartered in Rülzheim, Germany, is a **leading supplier** of **automotive** and **bicycle accessories**, **car care products** and **household electrical items**. Its portfolio includes around **20.000 products** under brands such as **NIGRIN**, **cartrend**, and **FISCHER**. With strong distribution across European retail, discount, and online channels, the company supplies both B2C customers and major retail chains.

## Project Goals And Challenges

### Before:

- Manuel processes
- Excel Spreadsheets & E-Mail coordination
- Limited transparency across suppliers

### After:

- Central platform for order & logistics management
- Real-time tracking and dashboards
- Automated communication with suppliers & forwarders
- Scaling from 120 to 350 suppliers (Asia & Europe)

## Business Impact

- ✓ Faster planning & response time
- ✓ Reduced manual work & e-mails
- ✓ Single source of truth for partners
- ✓ Scalable, international supplier integration

“With OSCA, we are gradually bringing more transparency to our supply chain and improving the traceability of purchase orders and supply chain management. The tool makes it easy to intervene quickly.”

**Helge Jager**

Head of Supply Chain, MTS Group

## OSCA In Action

### Key Features:

Monitoring: costs, volumes, lead times, packing lists, delivery dates

Dashboards & automatic alerts in case of delays

Supplier Connectivity & Scalability

End-to-End Order & Transport Management

Warehouse & Post-Shipment Control
